### **EXAMINER'S RESPONSE**

#### **Status of Application**

In response to the applicant's amendment received on 10/9/03. The examiner has considered the new presentation of claims and applicant arguments in view of the disclosure and the present state of the prior art. And it is the examiner's position that claims 1-18 are unpatentable for the reasons set forth in this office action:

#### ***Claim Rejections - 35 USC § 112***

1. Claims 1-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Support for the limitation to simultaneously displaying could not be found in the specification as originally filed. The applicant did point to the specification for support however, the specification states that "...which the user has view until then.." implies that the view of the old message is no longer presented and therefore support for simultaneous display is lacking.

#### ***Response to Arguments***

2. Applicant's arguments filed 10/9/03 (regarding the 112 first paragraph rejection) have been fully considered but they are not persuasive. The applicant points to other

section of the specification. Thus, under the condition that the ROM 6 contains n messages stored therein, if the latest message is received at the time the user has read the m messages from message #1 to message #m, **the latest message is firstly displayed** on the display section 8 as shown in FIG. 3. This still does not support the now claimed limitation that the messages are simultaneously displayed. Again, like other sections of the specification, this does provide support for first display one message and then displaying a next message.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
